General and Revocability of Proxies

This Proxy Statement (the "Proxy Statement") and the accompanying materials are furnished in connection with the solicitation of proxies by the Board of Directors of Sharps Compliance Corp., a Delaware corporation (the "Company"), on behalf of the Company, to be used at the Annual Meeting of Stockholders of the Company to be held on November 21, 2013 (the "Annual Meeting") at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders and adjournment(s) or postponement(s) thereof. This Proxy Statement, Proxy Card and the Company's Annual Report covering the Company's fiscal year ended June 30, 2013, including audited financial statements, are being mailed to the stockholders of the Company on or about October 2, 2013.

When a stockholder's executed proxy card specifies a choice with respect to a voting matter, the shares will be voted accordingly. For items (i) and (ii), which are considered non-routine under Rule 452 of the New York Stock Exchange, which was adopted by the NASDAQ Capital Market, if you do not provide voting instruction, your shares will not be voted for these items. If any other matters properly come before the Annual Meeting, the proxies will vote upon such matters according to their judgment.

The Company encourages the personal attendance of its stockholders at the Annual Meeting, and execution of the accompanying proxy will not affect a stockholder's right to attend the Annual Meeting and to vote his or her shares in person. Mere attendance at the Annual Meeting will not of itself revoke the proxy.

All expenses of the Company in connection with the solicitation of proxies will be borne by the Company. In addition to solicitation by mail, the Company's directors, officers and employees may solicit

proxies by telephone or other means of communication. The Company will request brokerage houses and other custodians, nominees and fiduciaries to forward solicitation material to the beneficial owners of shares held of record by such persons and will reimburse such persons and their transfer agents for their reasonable out-of-pocket expenses in forwarding such material.

VOTING SECURITIES AND PRINCIPAL STOCKHOLDERS

General

The Board has fixed the close of business on September 23, 2013 as the record date (the “Record Date”) for the Annual Meeting. Only holders of record of the outstanding shares of Common Stock at the close of business on the Record Date are entitled to notice of and to vote at the Annual Meeting and any adjournment(s) thereof. At the close of business on September 23, 2013, there were 15,340,382 shares of Common Stock outstanding and entitled to be voted at the Annual Meeting. The Common Stock is the only class of stock entitled to vote at the Annual Meeting. Each share of Common Stock is entitled to one vote on each matter presented to the stockholders. Cumulative voting is not permitted by the stockholders of the Company’s Common Stock.

Quorum and Vote Required

The presence, in person or by proxy, of a majority of the total shares of Common Stock issued and outstanding at the close of business on the Record Date is necessary to constitute a quorum for transaction of business at the Annual Meeting. Assuming the existence of a quorum, pursuant to our bylaws, the affirmative vote of a plurality of the shares of Common Stock present, either in person or represented by proxy, and entitled to vote at the Annual Meeting is required to elect directors. With respect to matters other than the election of directors, our bylaws provide that, if a quorum is present, the affirmative vote of a majority of the shares of Common Stock present, either in person or represented by proxy, and entitled to vote at the Annual Meeting is required to decide any such matter brought before such meeting, except as otherwise provided by our Certificate of Incorporation or applicable law. Accordingly, a majority of the shares of Common Stock represented in person or by proxy at the Annual Meeting must be cast in favor of the proposal for the non-binding approval of executive compensation in order for such proposal to be approved by our stockholders. If a quorum is not present in person or by proxy, the Annual Meeting may be adjourned until a quorum is obtained.

Abstentions are counted toward the calculation of a quorum and will have the same effect as a vote against a proposal. Broker non-votes occur when a broker or nominee holding shares for a beneficial owner does not vote on a non-routine proposal because the broker or nominee has not received voting instructions from the beneficial owner and does not have discretionary voting power with respect to such proposal. Rule 452 of the New York Stock Exchange, which has been adopted by the NASDAQ Capital Market, provides that a broker or other nominee holding shares for a beneficial owner may generally vote on routine matters, but not non-routine matters, without receiving voting instructions. Under Rule 452, the uncontested election of directors (Proposal 1) and the non-binding advisory vote on executive compensation (Proposal 2) are considered non-routine matters. If your shares are held by a broker or nominee and you do not provide such voting instructions, your shares will not be voted for Proposals 1 and 2. **Please provide instructions to your brokers or nominee on how to vote your shares.** Under Rule 452, the ratification of the selection of the independent registered public accounting firm (Proposal 3) is considered a routine matter. Abstentions and broker non-votes will not affect the outcome of the voting on Proposal 3.

The Audit Committee, Compensation Committee and Corporate Governance Committee of the Board are composed entirely of independent directors.

Succession and Transition David P. Tusa was appointed to the role of Chief Executive Officer effective September 30, 2010. Mr. Tusa has been with the Company for over ten years and has been a key player in driving the Company's growth, strengthening the balance sheet and ensuring efficiency in operations. Mr. Tusa has been instrumental in initiating the joint marketing alliance with Daniels Sharpsmart and with the development of new solutions including the expansion of the Sharps Recovery System™ brand portfolio to cover facilities with multiple treatment rooms and the Complete Needle™ Collection & Disposal System. The Board believes Mr. Tusa's primary role should be to lead and manage the day-to-day operations of the Company. Mr. Tusa has extensive knowledge of the day-to-day operations of the Company and his focus continues to be on expanding the Company's customer base, expanding relationships with existing customers, and developing strategic relationships and alliances.

F. Gardner Parker was appointed Chairman of the Board (the "Chairman") in November 2010. The Chairman is expected to organize the Board activities to enable the Board to effectively guide, oversee and hold management accountable. To fulfill that role, the Chairman is expected to create and maintain an effective working relationship with the Chief Executive Officer and other members of the Board; provide the Chief Executive Officer on-going direction as to Board needs, interests and opinions; and ensure that the Board agenda is appropriately directed to the matters of greatest importance to the Company. The Chairman is expected to preserve the distinction between management and oversight, ensuring that management develops a corporate strategy and the Board of Directors reviews and expresses its views on the corporate strategy. In addition the Chairman's roles include but are not limited to the following, (i) advising the Chief Executive Officer as to an appropriate schedule of Board meetings, (ii) seeking to ensure that the directors can perform their duties responsibly while not interfering with on-going Company operations, (iii) approving, with the Chief Executive Officer, an agenda and the meeting schedules for the Board of Directors and Board Committee meetings, (iv) advising the Chief Executive Officer as to the quality, quantity and timeliness of the information submitted to the Board by the Company's management that is necessary or appropriate for the directors to effectively and responsibly perform their duties, (v) calling meetings of the directors, and (vi) acting as the principal liaison between the directors and the Chief Executive Officer on sensitive issues.

Board's Role in Risk Oversight The Board is responsible for determining the ultimate direction of our business, determining the principles of our business strategy and policies and promoting the long-term interests of the Company. The Board possesses and exercises oversight authority over the business, subject to governing documents and applicable law, but delegates day-to-day management of the Company to the Chief Executive Officer and other executive officers. This structure requires clear and timely communication between the Chief Executive Officer and Chairman regarding management decisions that will impact the Board. Viewed from this perspective, the Board generally oversees risk management, and the Chief Executive Officer and other executive officers manage the material risks that we face. The Board focuses on the most significant risks facing the Company and the Company's general risk management strategy, and also ensures that risks undertaken by the Company are consistent with such strategy.

Risks falling within this area would include but are not limited to business ethics, general business and industry risks, operating risks and financial risks. We have not concentrated within our executive officers responsibility for all risk management in a single risk management officer, but rather rely on various executive and other management personnel to understand, assess, mitigate and generally manage material risks that we face in various areas including capital expenditure plans, liquidity, operations and health, safety and environmental. As necessary, the Chief Executive Officer and other executive officers report to the Board and its committees, as appropriate, regarding material risk and the management of risk facing the Company. The Board monitors the risk management information provided to it and provides feedback to management from time to time.

The Audit Committee assists the Board in the oversight of the integrity of the Company's financial statements and various matters relating to our publicly available financial information and our internal

and independent auditors. The Audit Committee also evaluates related party transactions and potential conflicts of interest for the Company as they arise. The Audit Committee's role includes receiving information from our employees and others regarding public disclosure, our internal controls over financial reporting and material violations of law. Risks associated with retaining and incentivizing management fall within the scope of the authority of the Compensation Committee, which assists the Board in reviewing and administering compensation, benefits, and incentive and equity-based compensation plans. These committees periodically receive reports from management regarding management's assessment of risks and report regularly to the full Board regarding such risks.

Meetings, Committees and Committee Reports

Board and Committee Meetings The Board meets on a quarterly basis and holds special meetings whenever circumstances require. The Board held four regularly scheduled quarterly meetings and one special meeting during the fiscal year ended June 30, 2013. The independent Board members meet in executive sessions at each quarterly and special Board of Directors meeting. During 2013, each of the directors attended at least 75% of the aggregate number of meetings of the Board and the committees on which he or she served that were held during the period in which he or she served as a director or committee member. The Company does not have a policy regarding director attendance at the Company's Annual Meeting of Stockholders. All of the directors attended the Company's 2012 Annual Meeting of Stockholders.

Committees of the Board The Board currently has three standing committees: Audit, Compensation and Corporate Governance.

Audit Committee Report. *The information contained in this report shall not be deemed to be "soliciting material" or "filed" or incorporated by reference in future filings with the SEC, or subject to liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except to the extent that we specifically request that the information be treated as soliciting material or specifically incorporate it by reference into a document filed under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act.*

The Audit Committee's purpose is to assist the Board in its oversight of the Company's internal controls and financial statements and the audit process. The Board, in its business judgment, has determined that all members of the Audit Committee are "independent," as required by applicable standards of the SEC and NASDAQ. The Audit Committee operates pursuant to a written charter adopted by the Board. The charter of the Audit Committee is available on the Company's website. The address of the Company's website is <http://www.sharpsinc.com>. Mr. Dalton, Dr. Tannenbaum and Dr. Zerrillo (Chairman) are the current members of the Audit Committee. The Board has determined that Dr. Zerrillo is an independent director who, in light of his business experience and financial expertise detailed above, qualifies as an audit committee financial expert, as that term is defined by the SEC and the applicable listing standards of the NASDAQ. The Audit Committee is responsible for pre-approving all services provided by the Company's independent registered public accounting firm, UHY.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The Company's independent registered public accounting firm, UHY, is responsible for performing an audit of (1) the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting and Oversight Board (United States) and (2) the Company's internal control over financial reporting based on criteria established in the *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). In performing its oversight role, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent registered public accounting firm. The Audit Committee has also

discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, and related interpretations, as amended and currently in effect. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by PCAOB Rule 3526. The Audit Committee has also considered whether the provision of non-audit services by the independent registered public accounting firm is compatible with maintaining its independence and has discussed with the independent registered public accounting firm its independence.

In overseeing the preparation of the Company's financial statements and internal control over financial reporting, the Audit Committee met with both management and UHY to review and discuss all financial statements prior to their issuance, all assessments of internal control over financial reporting and significant accounting issues. Based on the reports, review and discussions described in this report, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2013.

The Audit Committee met four times in the fiscal year ended June 30, 2013.

The **Corporate Governance Committee** is appointed by the Board to ensure that the Board is appropriately constituted to meet its fiduciary obligations to the Company and its stockholders. The Corporate Governance Committee assists in monitoring and shaping the corporate governance of the Company and assists the Board in connection with Board nominations matters. The Corporate Governance Committee evaluates the structure and membership of the Board and its committees and assesses the qualifications of prospective nominees to the Board. In evaluating director candidates, the Corporate Governance Committee considers factors it deems relevant, including, at a minimum, each member and nominee's general understanding of marketing, finance, accounting, or other elements relevant to the success of a publicly traded company in the current business environment, understanding

of our business on an operational level, integrity, education and professional background, and willingness to devote time to the Board's duties.

In addition, the Board evaluates each individual in the context of the Board as a whole, with the objective of recommending individuals that can best perpetuate the success of our business and represent stockholder interests through the exercise of sound business judgment using their diversity of experience in these various areas. The Board of Directors oversees Chief Executive Officer and senior management succession planning. The process focuses on building management depth, considers continuity and stability within the Company, and responds to the Company's evolving needs and changing circumstances.

The Board of Directors does not specifically consider diversity in regards to ethnicity, gender, race, or age in assessing the qualifications of director nominees nor does it have a policy regarding diversity of nominee candidates. However, as stated above, the committee does consider the diversity of professional experiences and the background of nominees, both individually, and in the context of the whole board.

The Corporate Governance Committee periodically reviews and assesses the adequacy of the Company's Code of Ethics and makes recommendations to the Board regarding any amendments, modifications or waivers of the provisions thereof.

The Corporate Governance Committee is composed of at least two members of the Board, each of whom meets the independence requirements under the applicable listing standards of NASDAQ and the SEC. Messrs. Holmes (Chairman), Dalton and Zerrillo are the current members of the Corporate Governance committee. The Board has adopted a written charter for the Corporate Governance Committee. The charter of the Corporate Governance Committee is available on the Company's website. The address of the Company's website is <http://www.sharpsinc.com>. In addition to the responsibilities and functions described above, the Corporate Governance Committee also:

- recommends a slate of director nominees for approval by the Board and election by the stockholders in connection with the Company's Annual Meeting of Stockholders;
- reviews stockholder nominations for candidacy to the Board, if any, and any stockholder proposals affecting corporate governance and makes recommendations to the Board accordingly;
- periodically reviews overall corporate governance principles, procedures and practices of the Company and makes recommendations to the Board as appropriate;
- periodically reviews and reports to the Board on the effectiveness of the Company's corporate governance;
- periodically reviews the charter of the Corporate Governance Committee, the Company's Certificate of Incorporation, Bylaws and other corporate governance documents and recommends any changes or amendments to the Board, as the Committee deems appropriate, including changes necessary to satisfy any applicable requirements of NASDAQ, the SEC and any other regulatory requirements;
- monitors the independence of directors under all applicable rules and regulations;
- reviews any potential conflicts of interest between the directors or its executive officers and the interests of the Company;
- oversees and reviews the Company's processes for providing information to the Board so that the Board obtains appropriately detailed information in a timely fashion; and
- provides a report of the Corporate Governance Committee's activities to the full Board not less than once per year.

In addition to the responsibilities listed above, the Corporate Governance Committee undertakes such other duties as the Board delegates to it and performs such other activities as are consistent with the charter of the Corporate Governance Committee.

Stockholders desiring to make recommendations for candidacy to the Board should submit such recommendations to Diana P. Diaz, Corporate Secretary, Sharps Compliance Corp., 9220 Kirby Drive, Suite 500, Houston, Texas 77054. The Corporate Governance Committee will evaluate candidates properly proposed by stockholders in the same manner as all other candidates.

The Corporate Governance Committee met one time during the fiscal year ended June 30, 2013.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis is intended to provide context for the decisions underlying the compensation reported in the Summary Compensation Table included below in this proxy statement for the Company's Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and the three other executive officers of the Company who had the highest total compensation for fiscal 2013 as set forth in such table (these five executive officers being collectively referred to below as the "Named Executive Officers"). This Compensation Discussion and Analysis will discuss corporate and individual performance, targets and goals for senior executive officers, including the Named Executive Officers. These targets, goals and performance are disclosed in the limited context of the Company's executive compensation program. You should not interpret them as statements of the Company's expectations or as any form of guidance. We caution you not to apply the statements or disclosures in the Compensation and Discussion Analysis in any other context.

Overview of 2013 Company Performance Fiscal 2013 was a pivotal year as we have transformed the company into a leading full-service provider of comprehensive medical waste and unused medication management services. We are now positioned to address the needs of multiple markets including Healthcare, Assisted Living, dental groups and other organizations that have multi-site and multi-size locations by providing highly cost-effective and compliant solutions. While medical waste challenges continue to multiply across the country, our ability to provide complete solutions has strengthened our position in our target markets, estimated at \$800 million for the regulated sector and \$3 billion for the unregulated. We have seen early success from the execution of this strategy during the fiscal 2013 year, and expect it to drive further growth and stockholder value in years to come.

Solid Core Growth – Stable Performance While our revenue declined 1.2% to \$21.5 million in fiscal 2013, our core customer billings increased 5.9% to \$21.3 million. This core customer billings measurement excludes a \$1.7 million impact in fiscal 2012 from the maintenance portion of a US government contract which was terminated effective January 31, 2012. The core billings growth was driven by inroads made and successes realized in several of our markets, evidence that our strategy is working. While our operating loss was \$2.7 million in fiscal 2013 compared with \$2.5 million in 2012, we believe that we have overcome the impact of the terminated US government contract and that revenue and operating leverage will grow.

As we indicated last year, the professional market was one of our strategic targeted markets for fiscal 2013, and we're pleased to report that we realized a 28% increase in billings to \$3.9 million compared with \$3.0 million in fiscal 2012. This remains a significant opportunity for growth as we continue to create awareness of our cost-effective solutions among the estimated 800,000 doctors, dentists, veterinarians and other small quantity generators of medical waste which make up a \$600 million regulated market opportunity. We are addressing this market through our inside and online sales channel, which grew 41% compared with fiscal 2012, and through the joint marketing alliance with Daniels SharpSmart which allows us to serve multi-location providers with a national footprint.

Assisted living billings increased 21% over the prior year to \$1.6 million, as our sales and marketing programs realized success in servicing the growing medical waste management needs derived from changing demographics. Our solutions are a solid fit for this market. The US population over the age of 65 is expected to double within the next 25 years and one out of every five Americans will be over 65 years of age by 2030. We see the growth from this market coming from existing customers and from new customers as large assisted living providers also grow because of this demographic trend.

The pharmaceutical manufacturer market also posted strong year-over-year revenue growth, up 13% to \$2.4 million. Our customers have been pleased with the positive results of our patient support programs

and we are leveraging this to drive more opportunities within existing and new programs. Importantly, we are beginning to see new patient support program opportunities for additional drugs that have the potential to positively impact calendar years 2014 and 2015.

Our retail billings were down slightly from the prior year due to the timing of flu shot-related orders. However, we are encouraged that US retail clinics are projected to double between 2011 and 2015, according to an Accenture ACN report from June 2013. These retail pharmacies offer a significant volume of flu shots and other inoculations, making this a very fertile market for the Company.

Transformation – Expands Addressable Market Our transformation into a comprehensive medical waste and unused medication management solutions provider is supported by our alliance with Daniels Sharpsmart announced in May 2012. The alliance is opening doors and allowing us to bid on opportunities where we were previously not able to participate. We now provide both large and small quantity waste solutions, multiple waste treatment facilities and options, and online tracking and reporting tools which allow us to customize unique solutions for our different customers. Additionally, our regulatory, logistics and waste minimization solutions provide value to many customers who do not have the compliance background or understanding of the complex regulatory environment. As health care costs continue to rise, healthcare facilities continue to consolidate, and the delivery model becomes more decentralized, our cost-effective and compliant solutions become even more compelling.

Capturing Opportunities – Creating Growth Our Company is poised to leverage its vertically-integrated, full service operation. We believe that our value proposition provides a competitive advantage to win major customers in our key markets. We are aligned to educate the market place that we are an alternative provider that is positioned to service their needs for safe and cost effective medical waste management. And we have developed a highly scalable business model to drive operating leverage.

The Company believes that the initiatives discussed in this section and launched in fiscal year 2013 will be critical components to achieving expected revenue growth in fiscal year 2014 and beyond.

2013 Compensation Actions Related to Named Executive Officers During the year ended June 30, 2013 and as detailed more in the Summary Compensation Table, the following compensation related actions occurred:

- Options to purchase the Company's stock were granted to Mr. Tusa, Ms. Diaz, Mr. Davis and Mr. Aladwani.
- Options to purchase the Company's stock were granted to Mr. Nelson in conjunction with his appointment as Senior Vice President of Sales of the Company on February 18, 2013.
- No annual cash incentives were paid in fiscal year 2013.

Role of the Compensation Committee The Compensation Committee's overall goal is to develop executive compensation policies that are consistent with, and linked to, the Company's strategic business objectives and values. The Compensation Committee approves the design of, assesses the effectiveness of and administers executive compensation programs in support of the Company's compensation policies. At least annually, the Company's Chief Executive Officer reports to the Compensation Committee an evaluation of executive performance and a recommendation regarding salary and other remuneration for executives. The Compensation Committee considers these evaluations and recommendations during its regularly scheduled sessions, and may choose to adopt the recommendations or modify them at its sole discretion. The Compensation Committee reviews and approves all salary arrangements and other remuneration for executives, evaluates executive performance and considers related matters.

Consideration of Recent Stockholder Advisory Votes on Executive Compensation At the Company's most recent annual meeting of stockholders held on November 15, 2012, the Company's stockholders approved by a favorable vote of 97.0% of the shares voted on such proposal, the compensation of the Company's Named Executive Officers as described in the Company's proxy statement for such annual

meeting. Although this vote is non-binding, the Compensation Committee viewed this strong endorsement of the executive compensation philosophy, policies and decisions as an additional factor supporting the Compensation Committee's conclusion that the existing approach to executive compensation is appropriate and successful for the Company.

Compensation Philosophy The Company's executive compensation policies have four primary objectives: (i) to attract and retain highly competent executives to manage the Company's business, (ii) to offer executives appropriate incentives for accomplishment of the Company's business objectives and strategy, (iii) to encourage stock ownership by executives to enhance mutuality of interest with stockholders and (iv) to maximize long-term stockholder value.

Elements of Compensation The key elements of the Company's executive compensation are base salary and an annual compensation pool that includes both cash bonuses (short-term) and stock options (long-term). These key elements are addressed separately below. In determining compensation, the Compensation Committee considers all elements of an executive's total compensation package.

Base Salary Base salaries for executives are determined initially by evaluating the executive's level of responsibility, prior experience, breadth of knowledge, internal equity issues and external pay practices. Increases to base salaries are driven primarily by individual performance. Individual performance is evaluated based on sustained levels of individual contribution to the Company. When evaluating individual performance, the Compensation Committee considers the executive's efforts in promoting Company values, continuing educational and management training, improving product quality, developing relationships with customers and vendors and demonstrating leadership abilities among co-workers.

Annual Incentives Each year, the Compensation Committee evaluates the performance of the Company as a whole, as well as the performance of each individual executive. Factors considered include Company performance versus expectations, as well as individual accomplishments. The Compensation Committee does not utilize formalized mathematical formulae, nor does it assign weightings to these factors. The Compensation Committee, in its sole discretion, determines the amount, if any, of incentive payments to each executive. The Compensation Committee believes that the Company's performance versus expectations and individual accomplishments require subjectivity on the part of the Compensation Committee when determining incentive payments.

On February 29, 2012, the Compensation Committee adopted the Executive Incentive Compensation Plan (the "EICP Plan") beginning with fiscal year 2012 and effective every fiscal year thereafter, unless terminated or modified by the Compensation Committee. The EICP Plan, which includes the Company's Named Executive Officers, is designed to motivate and reward eligible participants whose performance is considered by the Compensation Committee to be critical and integral to the overall success of the Company. Key provisions of the EICP Plan are described as follows:

- **Annual Compensation Pool** - \$250,000 in cash bonuses for Named Executive Officers and 300,000 in stock options, with 75,000 of such stock options designated for non-executive employees of the Company (therefore, 225,000 stock options for Named Executive Officers).
- **Part I - 75% of the Annual Compensation Pool**
 - 75% of the Annual Compensation Pool is considered earned if the Company reports audited fiscal year financial results (revenue and earnings) equal to or greater than 90% of the corresponding revenue and earnings reflected in the Board of Director-approved financial budget.

- Should the Company achieve the above for revenue only, then 50% would be substituted for the 75% in the above paragraph. Should the Company achieve the above for earnings only, then 25% would be substituted for the 75% in the above paragraph.
- Assuming achievement of any of the above three scenarios, the Company's CEO would be entitled to 40% of the earned cash bonus and 40% of the earned stock options applicable to the Named Executive Officers. The Company's CEO would make a recommendation to the Compensation Committee, for their approval, of the allocation of the remaining 60%.
- **Part II - 25% of the Annual Compensation Pool** - The payment or award of 25% of the Annual Compensation Pool would be determined by the Compensation Committee in their sole discretion who would consider such items as, (i) individual Executive Officer performance, (ii) Executive Officer accomplishments that position the Company for growth and success and (iii) other parameters considered relevant to the Compensation Committee. As part of this process, each Executive Officer will submit to the Compensation Committee a "white paper" describing his or her accomplishments over the fiscal year as it relates to positioning the Company for growth and success.
- **Eligibility and Payments to Participants** - The Named Executive Officer must be an active, full-time employee of the Company on the last day of the corresponding fiscal year to be eligible for participation in the EICP Plan. Awards shall be determined and paid no later than twenty-one (21) days after the public release of the Company's annual fiscal year-end financial results.
- **Stock Options and Restricted Stock Awards** - Stock options awarded pursuant to the EICP Plan are currently provided to executives through the Company's 2010 Stock Plan and if applicable, the 1993 Stock Plan, in the form of stock options and restricted stock awards. Key features of these stock plans are included under the caption "Equity Compensation Plan Information." Stock options, when awarded, have been granted at an option price not less than the fair market value of the Common Stock on the date of grant. Accordingly, stock options have value only if the price of the Common Stock appreciates after the date the options are granted. The design focuses executives on the creation of stockholder value over the long-term and encourages equity ownership in the Company.

The EICP Plan, as described in this section, represents the general guidelines the Compensation Committee presently intends to utilize to determine executive incentive compensation. If, however, at the sole discretion of the Compensation Committee, the Company's best interest is served by applying different guidelines in special or for unusual circumstances, it reserves the right to do so. The Compensation Committee reserves the right to amend or discontinue the EICP Plan at any time in the best interests of the Company and its stockholders. Without in anyway limiting the foregoing rights of the Company, should a material business event, significant customer contract, acquisition, disposition or change in control occur during the EICP Plan period, the Compensation Committee reserves the right to amend or supplement the EICP Plan following such event in such manner as the Compensation Committee, in its sole discretion, deems appropriate.

The Compensation Committee shall have full power and authority to interpret and administer the EICP Plan and shall be the sole arbiter of all manners of interpretation and application of the EICP Plan and the Compensation Committee's determination shall be final. Any inconsistencies that may occur between the EICP Plan provisions and the calculation of the incentive results will be interpreted and resolved on an individual basis by the Compensation Committee.

There are 384,667 stock options issued under the 1993 Stock Plan (with a weighted average exercise price of \$4.86) which remain outstanding subsequent to the replacement of the 1993 Stock Plan.

Sharps Compliance Corp. 2010 Stock Plan

General. The 2010 Stock Plan, approved by the stockholders of the Company, is intended to advance the best interests of the Company and its stockholders by providing those persons who have substantial responsibility for the management and growth of the Company with additional performance incentives and an opportunity to obtain or increase their proprietary interest in the Company, thereby encouraging them to continue in their employment or affiliation with the Company. The Plan permits the grant of incentive stock options ("ISOs"), nonqualified stock options ("NQSOs"), restricted stock, restricted stock unit awards ("RSUs"), other stock-based awards and cash-based awards (individually or collectively, the "Awards"). Grants of ISOs are intended to satisfy the requirements of Section 422 of the Internal Revenue Code of 1986 as amended (the "Internal Revenue Code"). The 2010 Stock Plan includes a forfeiture provision which allows the Administrator, under certain circumstances, to cancel unexercised stock awards previously granted to a participant.

Shares Subject to the 2010 Stock Plan. The 2010 Stock Plan provides for the issuance of up to 1,000,000 shares of the Company's common stock, of which 296,308 are available for issuance under the 2010 Stock Plan.

Administration. The 2010 Stock Plan is administered by the Compensation Committee, except in the case of awards issued to directors, which are administered by the Board (individually or collectively, the "Administrator"). Subject to the terms of the 2010 Stock Plan, the Administrator has the authority to determine the persons to whom Awards will be granted; the number and exercise price of shares of stock covered in each Award; the terms, provisions and conditions of each Award; acceleration of vesting; and all other determinations and actions necessary to properly administer the plan. The Administrator may authorize one or more officers of the Company to designate employees to receive Awards as well as the size of such Awards, subject to certain limitations.

Eligibility. Awards may be granted to employees and directors of the Company, except for ISOs which can only be awarded to key employees. Awards other than ISOs may also be granted to persons who are expected to become key employees within six months.

Awards. Options and Restricted Stock Awards may be granted under the 2010 Stock Plan at the discretion of the Administrator. The Administrator specifies the terms and any restrictions on the awards. Other Awards may be granted under the 2010 Stock Plan at the discretion of the Administrator including RSUs and cash based awards. However, these have not been awarded in the past and are not expected to be used under existing incentive plans.

Change in Capital Structure. The existence of outstanding Awards shall not affect in any way the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in the Company's capital structure or its business, any merger or consolidation of the Company, any issue of bonds, debentures, preferred or prior preference shares ahead of or affecting the Company's Common Stock or stock rights, the dissolution or liquidation of the Company, any sale or transfer of all or any part of its assets or business or any other corporate act or proceeding, whether of a similar character or otherwise.

Change in Control. In the event of an occurrence of a change in control of the Company as defined in the 2010 Stock Plan, all outstanding ISOs and NQSOs and Restricted Stock Awards granted under the Plan will become fully vested and exercisable and all risk of forfeiture restrictions applicable thereto shall lapse. The effect, if any, of a change in control of the Company on any other Award granted under the Plan will be determined in accordance with the award agreement applicable to such award.

Federal Income Tax Consequences. The following discussion summarizes certain federal income tax consequences of the issuance and receipt of options and awards pursuant to the Plan under the law as in effect on the date of this proxy statement. The rules governing the tax treatment of such options and awards are quite technical, so the following discussion of tax consequences is necessarily general in nature and is not complete. In addition, statutory provisions are subject to change, as are their interpretations, and their application may vary in individual circumstances. This summary does not purport to cover all federal employment tax or other federal tax consequences associated with the Plan, nor does it address state, local, or non-U.S. taxes.

A participant generally is not required to recognize income on the grant of an Award other than a cash-based award. Instead, ordinary income generally is recognized on the date the option is exercised, or in the case of restricted stock awards, upon the issuance of shares and/or the payment of cash pursuant to the terms of the awards. In general, the amount of ordinary income required to be recognized is (a) in the case of an option, an amount equal to the excess, if any, of the fair market value of shares on the exercise date over the exercise price and (b) in the case of restricted stock awards, the amount of cash and/or the fair market value of any shares received in respect thereof, plus the amount of taxes withheld from such amounts. Upon payment of a cash-based award, a participant is required to recognize ordinary income in the amount of the award.

Termination and Amendment of the 2010 Stock Plan. The Board of Directors may terminate or amend the 2010 Stock Plan in any respect or at any time, except that no amendment requiring stockholder approval will be effective without approval of the stockholders as required by applicable law or stock exchange rules.

Sharps Compliance Corp. 1993 Stock Plan. In November 2010, the stockholders of the Company approved the 2010 Stock Plan which replaced the 1993 Stock Plan. As of September 23, 2013, there are 384,667 stock options issued previously under the 1993 Stock Plan which remain outstanding subsequent to the replacement of the 1993 Stock Plan with the 2010 Stock Plan. These stock options have a weighted average exercise price of \$4.85 per share.

Non-Binding Advisory Vote on Executive Compensation - PROPOSAL TWO (2)

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act required the SEC to adopt rules requiring the Company to seek a non-binding advisory vote from our stockholders to approve the compensation awarded to our executive officers disclosed pursuant to Section 14A of the Exchange Act and Item 402 of Regulation S-K.

The Company's overall goal is to develop executive compensation policies that are consistent with, and linked to, the Company's strategic business objectives and values. The Company's executive compensation policies have four primary objectives: to attract and retain highly competent executives to manage the Company's business, to offer executives appropriate incentives for accomplishment of the Company's business objectives and strategy, to encourage stock ownership by executives to enhance mutuality of interest with stockholders and to maximize long-term stockholder value. The key elements of the Company's executive compensation are base salary and an annual compensation pool that includes both cash bonuses (short-term) and stock options (long-term).

A detailed discussion of the Company's executive compensation in 2013 is set forth under the captions "Executive Compensation" and "Compensation Discussion and Analysis." Stockholders are encouraged to read this material in its entirety to obtain an informed understanding of our executive compensation program.

This proposal, commonly referred to as "say-on-pay," enables stockholders the opportunity to express their views regarding the Company's executive compensation program in general and not of any one or more particular elements of that program. Stockholders have the opportunity to vote for, against, or abstain from voting on approval of 2013 executive compensation. This vote is a non-binding advisory vote on 2013 executive compensation. Accordingly, the following resolution will be submitted for a stockholder vote at the 2013 Annual Meeting:

RESOLVED, that the stockholders of Sharps Compliance Corp. approve, on an advisory basis, the compensation of the Company's Named Executive Officers, as disclosed in the Proxy Statement pursuant to Item 402 of Securities Exchange Commission Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables and narrative disclosures.

The Board of Directors recommends that Stockholders vote "For" approval, on an advisory basis, of 2013 executive compensation. The Compensation Committee and the full Board intend to consider and take into account the outcome of this non-binding advisory vote in making future executive compensation decisions.

Ratification of Independent Registered Public Accountants - PROPOSAL THREE (3)

Independent Registered Public Accountants The firm of UHY LLP ("UHY") acts as our principal independent registered public accounting firm. UHY personnel work under the direct control of UHY partners and are leased from wholly-owned subsidiaries of UHY Advisors, Inc. in an alternative practice structure.

UHY has been engaged by the Audit Committee of the Board of Directors of the Company (the "Board") as its independent registered public accountants since January 8, 2002. Management expects that a

representative of UHY will be present at the Annual Meeting, will have the opportunity to make a statement if such representative so desires and will be available to respond to appropriate questions.

Fee Information Fees for professional services provided by our independent registered public accountants in each of the last two fiscal years, in each of the following categories, are:

	2013	2012
Audit fees	\$168,000	\$168,000
Audit-related fees	-0-	-0-
Tax fees	-0-	-0-
All other fees	-0-	-0-
	<u>\$168,000</u>	<u>\$168,000</u>

Fees for audit services include fees associated with the annual audit, including the audit of internal control over financial reporting and the reviews of the Company's quarterly reports on Form 10-Q. There were no fees for audit-related fees (which include fees for consents and comfort letters provided for registration statements and offerings), tax related services or any other fees billed by the Company's independent registered public accountants. All of the above noted services performed and fees billed by the Company's independent registered public accountants were pre-approved in compliance with the Company's Audit Committee Charter.

Pre-Approval Policies and Procedures In accordance with its charter, the Audit Committee pre-approves all audit services and permissible non-audit services to be performed for us by the Company's independent registered public accountants. Under this policy, services are pre-approved as follows:

- Annually, the Company's independent auditors and management present to the Audit Committee the audit and non-audit services to be provided during the upcoming fiscal year and the estimated fees associated with each such service. The Audit Committee pre-approves or rejects the proposed services and fees as it deems appropriate.
- If additional audit or non-audit services are presented for pre-approval during the year, the Audit Committee pre-approves or rejects such additional services and the fees associated with such services as it deems appropriate.
- In deciding whether to pre-approve any proposed services, the Audit Committee considers, (i) potential conflicts of the proposed services with SEC and PCAOB rules on auditor independence, (ii) whether the independent registered public accountants are qualified to perform the proposed services, (iii) the benefits of the proposed services to the Company and (iv) the relationship between fees for audit and non-audit services. The Audit Committee will not approve proposed services that it believes, individually or in the aggregate, may impair the independence of the independent registered public accountants.
- The independent registered public accountants provide updates regularly with respect to, and the Audit Committee reviews, the services actually provided by the independent registered public accountants and the fees incurred with respect to those services.

Although stockholder ratification of the Audit Committee's selection of the independent registered public accounting firm is not required by law or the procedures adopted by the Company's Board of Directors, the Committee's selection of UHY as the Company's independent registered public accounting firm for the current fiscal year is being submitted for ratification by the stockholders at the annual meeting because the Company's Board of Directors has determined that such ratification is a matter of good corporate governance practice. If this proposal is not approved at the annual meeting, the Audit Committee may reconsider its selection of UHY. Even if the selection of UHY is ratified, the Audit

Committee, in its discretion, may select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders. **The Board of Directors recommends that Stockholders vote “For” the ratification of UHY as the Company’s independent registered public accountants for the current fiscal year.**
